SERVATOR C®
Cardiac Hypothermic Preservation
ORGAN PRESERVATION SOLUTION

- Identical to the Genzyme/Sanofi/IGL Celsior® Solution
- FDA cleared in 2019 for distribution in the United States
- Effective for the flushing and cold storage of cardiac allografts before heart transplantation
- Ready to use, no additives or filtering needed
- 24 Month Shelf Life
- Manufactured at our GMP/ISO/Health Canada Certified sterile manufacturing facility
- Available in cases of 10 1-liter bags, or individual bags if preferred
- Free ground shipping anywhere in the US, with expedited delivery also available

Global Transplant Solutions Inc. is proud to supply Servator C® Cardiac Preservation Solution to the North American Organ Procurement, Heart Preservation and Transplant Community.

Servator C® Cardiac Preservation Solution is an identical formulation to Genzyme/Sanofi/IGL's Celsior® cold storage solution. Servator C® Cardiac Preservation Solution has been shown to be a safe and effective flush and cold storage solution for donated cardiac allografts for transplant.

SERVATOR C® Cardiac Preservation Solution is produced at our modern, automated cGMP and ISO certified sterile manufacturing plant to insure every product meets the highest quality standards set by the US Food and Drug Administration, European Union Health Ministry and Health Canada Interim Policy Directive for Organ Perfusion Solutions. The modern production processes and highest-grade ingredients used in manufacturing Servator C® provide extended shelf life, and the most batch-to-batch product consistency.

Servator C® Availability

- Box containing 10 bags of 1000 ml
- Individual 1000 ml bags also available

Global Transplant Solutions

Global Transplant Solutions (GTS) is exclusively dedicated to the Organ Procurement and Transplant Market, Worldwide. We believe supporting the global increase in organ donation is the primary purpose of every person at GTS. That's why, as a start, every employee at GTS is a registered Organ Donor, and why our message, Fostering the Mission, is ingrained in everything we do.

Our overriding focus is on providing this life saving community with the highest quality products available, and to continue to pursue ways of improving the current products. Every unit produced for GTS goes through a rigorous quality control and quality assurance process to insure each unit meets the standards required by organ procurement and transplant professionals. The life-saving gift of a donated organ deserves nothing less!

All GTS products are manufactured at our cGMP sterile manufacturing plant. Sterility is assured by means of Terminal Sterilization, the gold standard in quality assurance.
