

SAVING LIVES WITH SERVATOR

**GLOBAL
TRANSPLANT
SOLUTIONS**

SERVATOR H™

HISTIDINE - TRYPTOPHAN - KETOGLUTARATE

ORGAN PRESERVATION SOLUTION

- Sterile, pyrogen-free aqueous solution for the flushing, and preservation of organs for transplant
- Superior quality manufacturing with extended **18 months shelf life**
- PVC free bag
- Available in cases of 10 x 1-liter bags, 5 x 2-liter bags or 2 x 5-liter bags
- Dedicated US and Canadian Distribution Centers

Global Transplant Solutions is proud to offer SERVATOR H (HTK) to the organ preservation and transplant community.

SERVATOR H (HTK) is an identical formulation to the original Histidine-Tryptophan-Ketoglutarate preservation solution. SERVATOR H (HTK) is a less-viscous, clear-to-slightly yellow solution proven effective in the flushing, perfusion, shipping and storage of kidneys, livers, pancreas, and hearts for transplant.

SERVATOR H (HTK) is produced at our modern, automated cGMP and ISO certified sterile manufacturing plant to insure we meet the highest quality standards set by the US Food and Drug Administration, European Union Health Ministry and Health Canada Interim Policy Directive for Organ Perfusion Solutions. The modern production processes and highest-grade ingredients used in manufacturing Servator H (HTK) provide extended shelf life, and the most batch-to-batch product consistency.

Servator H (HTK) Availability

- Box containing 10 bags of 1000 ml
- Box containing 5 bags of 2000 ml
- Box containing 2 bags of 5000 ml

Global Transplant Solutions

Global Transplant Solutions (GTS) is exclusively dedicated to the Organ Procurement and Transplant Market, Worldwide. We believe supporting the global increase in organ donation is the primary purpose of every person at GTS. That's why, as a start, every employee at GTS is a registered Organ Donor, and why our message, Fostering the Mission, is ingrained in everything we do.

Our overriding focus is on providing this life saving community with the highest quality products available, and to continue to pursue ways of improving the current products. Every unit produced for GTS goes through a rigorous quality control and quality assurance process to insure each unit meets the standards required by organ procurement and transplant professionals. The life-saving gift of a donated organ deserves nothing less!

All GTS products are manufactured at our cGMP sterile manufacturing plant. Sterility is assured by means of Terminal Sterilization, the gold standard in quality assurance.
